GROUT CLEAN

S049

ACID DETERGENT FOR PORCELAIN STONEWARE **SURFACES**

DESCRIPTION

Concentrated acid-based detergent, dilutable in water, for the removal of residues of sealant, cement, installation glue, grout and efflorescence of rising salts, from stoneware surfaces porcelain and ceramic.

GROUT CLEAN dissolves the residues present on the surfaces without damaging the tile and without creating halos of opacity, it also does not attack the oxide contained in the mixtures used for grouting the surfaces.

YIELD

The yield varies from 5 to 20 m² of surface with 1 kg of product.

APPLICATION

Apply GROUT CLEAN diluted in water directly on the surfaces to be cleaned, leave it act for a few minutes, then rub with a brush or with a single brush equipped with disks appropriate to the type of surface finishing and remove the dissolved residues. Make then a finishing wash with the PROCLEAN 04 diluted in water at 5%. Do not apply at temperatures below +10 °C.

Avoid using GROUT CLEAN on porcelain stoneware surfaces "metallized" or on glossy or brushed marble.

ALWAYS CARRY OUT TESTS BEFORE USE

Anyone, before use, needs to know the characteristics of our products by reading the label affixed to each package, the technical data sheet and the safety data sheet compliant with Regulation (EC) 1272/2008 (CLP) (and subsequent amendments and adjustments) and of Regulation (EU) 2015/830, or eventually by contacting us directly. However, we recommend to strictly follow the instructions given or received.

We also recommend to carry out a preventive sampling to detect any unexpected results with respect to the method of application or the quality of the result. Keep the package well sealed and out of the reach of children. Aerate the working environment well during and also after the application of the product.

Do not eat or drink when using this product.

RECOMMENDATIONS

Avoid contact with natural aluminum and copper elements. The product cannot stand freezing, store it in well-closed and wellprotected places, at a temperature not lower than 10 °C. Always use suitable personal protective equipment, especially for eyes and hands.

NOTE

Our indications and technical advice, both given by voice or in writing, refer to our personal best knowledge and do not include any guarantee against third parties.

We kindly invite you to adapt our products to your needs and working conditions: methods of use and processing techniques are exclusively under the responsibility of the buyer.

As far as we are concerned, we guarantee constant quality in our supplies within our general conditions of sale. Should you verify our liability for any type of damage, the liability is limited solely and exclusively to the value of the goods supplied by us and used by you.
